

Go back to Henrik Juel - <http://www.henrikjuel.dk>

Upcoming:

I am currently writing on the rhetoric of moving images and in particular looking at the camera work involved in political debates and speeches on TV.

Furthermore, I am working on a new book about the didactics of rhetoric - a phenomenological approach to teaching speech. I have various tasks as an external examiner, and I continue my work as peer reviewer for the Journal of Short Film Studies. Travel plans include further language studies in France.
